Best Management Practices Order Form

The *Best Management Practices* (BMP) Guide is designed to help growers identify and promote exceptional management practices, methods and procedures. Any of these management practices can be implemented regardless of nursery size or location, and empowers container and field-grown plant producers to operate at a higher level of efficiency and effectiveness while implementing proactive management practices necessary to produce plants with minimal environmental impact.

This ever-popular guide has become recognized as the undisputed benchmark for horticultural BMPs in the U.S. with more than 6,000 copies in use today. The Best Management Practices Guide, v 1.0 was published in 1996 with an updated v 2.0 printed in 2007. Version 3.0 has just been released and is now available, for the first time, on the SNA website as a reference tool, and in print. This 176-page manual features two new sections – Constructing Wetlands: A How To Guide for Nurseries, as well as Crop Insurance for Nurseries. Version 3.0 will also be translated to **Spanish** later this year and can be pre-ordered below.

Funding for this update project is made possible by the USDA's Risk Management Association (RMA) in cooperation with the North Central IPM Center at the University of Illinois.

The Best Management Practices Guide can be ordered by simply filling out the information below and returning it to the SNA office, or by calling us at 678-809-9992. The only charge for the BMP v 3.0 is for shipping and handling as noted below**.**

Pricing Information

The only charge for the BMP v 3.0 is for shipping and handling as noted below. ***Spanish copies must be pre-ordered.***

❏   *Ship me _____ copies of the Best Management Practices:* Guide for Producing Nursery Crops v 3.0, Desk Edition *(English)*
